we gonna party, all night, let's go, alright, we gonna
rock and roll, who wanna rock and roll
party all night, let's go, alright, we gonna rock and roll,
who wanna rock and roll

i'm in this bitch like i wanna rock right now,
we so deep you motherfuckers might drown
i'm so fly tonight call me a night owl
i'm high as stars blue skies and white clouds
talking about let's go crazy, let's go ladies, they all
follow soon
...tell it, yeah it's a movie, watch the trailer if it don't
float out both, pop the sailor
party all night, party all night, a whole bunch of bitches
this is the dog fight

begin in the cream, you know off right, a whole lot of
smoke, i need fog lights
young money baby you can't hold me, you can't put me
so you can't fold me
lose your mind, out of control, i now pronounce you
rock and roll, yeah

party, all night, let's go, alright, we gonna rock and roll,
who wanna rock and roll
party all night, let's go, alright, we gonna rock and roll,
who wanna rock and roll.
