"They Still Like Me"

Drama I'm on fire man rock

(Lets go)

Weezy motherfucker

What it do holla at me

All the niiggas tryin to hate me

And the bitches tryin to have me

I'm a money man

Yep I get it from my daddy ho

In war we can beef like the nolia and the calio

Hollygrove my batte yo

Let that automatic go

Test me while I'm chillin

And I kill you from my patio

Bitch my shadow look good

I'm just feelin Weezy

Hop in my shit and say goodbye

Cause the ceilings leavin

Believe me

They ain't tryin to see me

Tell 'em I be the nigga with the burner in the beanie

I'm the fireman

She just call me when she steamin

I wet her up and put her out and leave the bitch

dreamin

Niggaz say they hot

But its really not seemin

If these guys bad then I gotta be a deamon

Wayne's getting money like Damon and Kenan

Try and take it from me and I'm aimin and squeezin

Bangin and leavin

Stains on the cement

Slide the crackers something

So they tame the policemen

Left in a porche

Came in a car-nation

I'm fresh

Man the gucci sweats came with the creases

I'm hot but I'm cold

I just change with the seasons

Tryin to put some cheese on my pieces
If you lookin for your nigga
I be where the water gets deeper
Huggin on that money
Tryin to put it in a sleeper
Yea I'm here
Who the fuck wanna say somethin
Leave your whole head empty
Like a straight pumpkin
Make no assumption
I'm hustlin
Your girlfriend guzzlin
And you thought she wasn't
Name still buzzin even when I'm doin nothin
But I'm never dioig nothin
Cause I'm always getting money
That's simple jackass
If you don't get it your a dummy
And them niggaz that push me
Ain't nut but pure pussy
Sure honey I done heard what you said
But if a nigga really cared
You'd already be dead
Just some young ass niggaz
With some old ass bread
Yes I keep them dollas running
Like them bitches got legs
Now my nigga Taz Po
Been ridin with me since Keds
And my right wrist
Is looking like a cracked open egg
Thays white and yellow diamonds
Adjust your lighting
I got 'em so mad but
Oh I think they like me
