[Lil Wayne talking]

Yea yea yea it's the Carter motherf**ker I came back around

Its the Carter motherf**ker I came back around

Its the Carter motherf**ker

Let me show you my building man, it's the Carter

I'ma show y'all the ins the outs the ups the down, kno what I'm

Talkin bout

This is me fourth solo album baby, I came back around

By myself this time, back off the wall

Guns up in the air in the middle of the streets like blak blak

Blak, welcome

[Verse 1]

This is the Carter y'all welcome, hard as Malcolm

Dawg is a vulcan Lord help him but y'all felt him

That make you a part of me and pardony

If a part of me is what you wanna be what you oughtta be

Don't worry Carter me I just actin accordingly

I give orders to the commander in chief, just the commander in

Me

Handlin streets in the mandarin V

I hear you haters slanderin me I just hand him the P

Any drama I pace it like Indiana, I take your grandma pacemaker

And jus handle the piece

Not two fingers I simultaneously bout two bangers

You do not want anger USDA prime beef, ya dead meat

I'm so ahead of these trendy rappers speed up

I'm already hot when another one startin to heat up

Got Mannie hot wit me 'cause I always beat his beat up

Yall cats wit y'all feet up startin to look like feet up, I'm

G'd up

On the V'd up, in the truck I gotta put my seat up

In the trunk I got my bass and I ain't speakin bout no speakers

What's leakin up out of yo speaker is the speech of

Weezy F.

Baby
No more no less Baby, so forth and so on
Front door livin room young nigga switchin we
What you need, get you crack get you weed
Make yo way to the back look ahead and see
White bitch in the bathroom givin head for speed
But don't you turn your head at me, the president been
doin it
Daddy tried to ruin it
But I built this building from the ruts
I own all the corners and the cuts in this motherf**ker
And the feds know just what's up in this motherf**ker
Made niggaz so they can't bust in this motherf**ker
So with that lets keep it movin, on to the kitchen where
my
Witches keep it brewin
Uh huh look at how my bitches do it
Bucky buck naked look at all my bitches booties
They handle all my pharmaceuticals
I got it from promethazane to metamucil
I'm crucial don't mean to spook you
But this is New Orleans so my queens do voodoo, ya
know
So the things just move through
I feel ya pain I got things to soothe you
That fills the cane so wayne the nuetral
Don't hate the game hate the institution
That fills the cane so wayne the nuetral
Dot hate the game hate the institution, f**ka

[Lil Wayne talking]
I came back around, it's the Carter
Show you the rest of the house later, we gon go
upstairs, ya
Kno
Ya kno what this is right
Tha Carter..tha Carter...tha Carter
