

## Lil Wayne

### "When I Sleep"

Visit "[When I Sleep](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Let you know something about me  
I'm a Southern boy! Know what I'm talking about?

[Hook - Kid Ink]

I remember all the days stuck in December  
Caught in the rain, all the pain, having no money come  
my way  
But now I'm making money even when I sleep  
Eyes wide awake, but I really need a dream  
We hustle, hustle

[Verse 1]

I go by Weezy, baby  
So call me "Lil Weasel"  
My city is New Orleans  
Baby, my street is Eagle  
And that's my nigga's?  
He like to break a piece  
He got the gun, I got the rope, my nigga pick a tree  
Ain't talking money, I let the nickel speak  
Niggas think I'm cheap, you ain't gon' to me  
The only thing to be: a picture on your shirt  
No homo: I put your dick in the dirt  
Flip em like a shovel with that wrist work  
I stop ya, heard? I keep em coming like clockwork  
J cool with the jump, it's an outburst  
And we gon' be from South Philly til the South dirt  
Bad bitch let me get all the outskirts  
It's lil Weezy, yeah?  
This ain't a concert, this ain't a?  
This an outburst, so hear the shot burst:

[Hook - Kid Ink]

Every hustle, we hustle, hustle - hey!

[Verse 2]

Straight from the bottom, now I'm high as a mountain  
From the city where you need way more protection than  
a condom  
Had a dream but I'm conscious, see the veins in my

sockets

In the sky, wishing I could turn this plane into a rocket  
And just leave here, more money but the problems still  
live here

I feel the pressure from my lil peers

Cause I'm about to blow, Swisher Sweet breathe in

One hit, lose your breath, all I do is (breathe) win

Big fish swimming in the deep end

No present, fuck I'm into pretense

I remember rainfall in the street

Now I'm in the club: watch me make this bitch

precipitate

I promised to myself I would be the best

You could say I'm crazy or a mess

Just hand me a wrench

And it's nothing you can tell a ho

Life is just a bitch, I'll forgive her but I'll never forget
