But you just keep living ya life and they keep wasting
time hating on you (Hating on you [2x])

They be hating on you, hating on you, hating on you
And they get mad when you win cause that's when they
lose, that's when they lose, that's when they lose
And you got better shit to do with your time

[Verse 1:]

They hating on ya, because they know you bad
Must be doing something right, if you got these bitches
mad

She never met her pops he left when she was five

Now she 19 stripping enough just to pay the bills

A single parent mom know it gotta be hard

Plus her baby daddy never seen the kid

She searching for love and she say that it's tough

Because she dances it's hard to find a man

And between all that she still in school

Using college as a back up plan

And like Pac said, keep ya head up

I know it's hard at times, you get fed up

But don't let up, gotta stay strong

But whatever you do just don't give up

Don't worry bout em, just do you

Stay focused, get on your grind

Just know that you can call on me

Whenever them niggas get out of line

And see a good friend is so hard to find

Somebody who down to ride

The best is yet to come for you

Don't let nobody steal your pride

[Chorus:]

Ohhh,

Baby, they can all say what they want cause you make
it do what it do (Do what it do [3x])

But you just keep living ya life and they keep wasting
time hating on you (Hating on you [2x])

They be hating on you, hating on you, hating on you

And they get mad when you win cause that's when they
lose, that's when they lose, that's when they lose

(That's when they lose baby, yeah)

And you got better shit to do with your time

[Verse 2:]

You done came up, that's why everybody done
changed up

You would think you worked at Gold's gym

The way you done stepped your weight up

Got a new man and got a new life

She bout to become a new wife

Looking like a new woman

Feels like you been blessed twice

Done stopped dancing and graduated

All it took was a little patience

Never mind how you got here

Just know that you finally made it

I'm just living in it but it's your world

You deserve it, you worked hard, you ballin' now

Got a new car, no car note, cause it's paid off (Damn)

I'm proud of ya, (proud of ya) you came a long way

(Yeah)

And if you need some inspiration

Just let this song play

Because a good friend is so hard to find

Somebody who down to ride

The best is yet, to come for you

Don't let nobody steal your pride

[Chorus:]

Ohhh,

Baby, they can all say what they want cause you make
it do what it do (Do what it do [3x])

But you just keep living ya life and they keep wasting
time hating on you (Hating on you [2x])

They be hating on you, hating on you, hating on you

And they get mad when you win cause that's when they
lose, that's when they lose, that's when they lose
