Young and confused with nothin' to lose, but somethin'
to prove
My hunger my views, I use 'em as tools to refuse for
the sake
Of rebellin', breakin' the rules and yellin', tellin' 'em to
come
And walk in my shoes, come and try it, be defiant, we
put
The heart of a lion, see if you like it, you livin' your life
culturally bias
'Cuz the ghettos got a bad rep and we gotta bad rap

So we get a half step in da door get the last laugh, ha,
no future
No past we live for the right now want us to pipe down
but this is
What life sounds like, when the thugs cry and I seen
love die
And I seen that hates born and born as it takes off form
as we take on The world is placed on our shoulders but
socially they never know Wassup, they approach us wit
they reconcieved notions
At least that's what the homies told me

The celebrations the movement, man we young and
confused
And to ambitious to lose it, just see we lovin' life
Since we was just critics they say, that we'd be go
gettaz
This is the movement, man we young and confused
And to ambitious to lose it, just see we lovin' life
Since we was just critics they say, that we'd be go
gettaz

Like the war thing, I don't know what y'all seen but my
generation is Gettin' caught in the cross-beams, uh, no
preparation, medication
And vaccines, uh, no reperation for the children who
ask things but
Ain't no answers they just say, pull ya pants up they
don't understand Us and still reprimand us, demand
us to live

Like this and that and that and this and it has us pissed
and after dis

I'll probably be banned but I gotta take a stand 'cuz u
seen what Happened with Eminem ignored stan, he
just lost it be cautious
See we all targets my thoughts is paretic, I feel so
asthmatic
Outta breath, sick of talkin' so we takin' action against
the democracy
Full of hip-hopcracy, I know its more to me then my hip
hop
Eyes they see that's what da homie said to me

The celebrations the movement, man we young and
confused
And to ambitious to lose it, just see we lovin' life
Since we was just critics they say, that we'd be go
gettaz
This is the movement, man we young and confused
And to ambitious to lose it, just see we lovin' life
Since we was just critics they say, that we'd be go
gettaz

In da world there's so much goin' on could leave ya
parinoid
Like that's just poppin' noise please, don't just think its
project boys
Whether ya urban night or ya suburban night it doesn't
matter
What matters is if ya swervin' right don't get it twisted a
lot happens
In suburban lives 'cuz dead is dead whether in ya room
or a curb

At night but the Lord is shinin' on ya, He said, in there
to calm ya'
He said, I'll be back the words like, Sarah Connors, she
said
We sleepin' on ya, wake up and leanin' on ya
Terminated, we playin', terminated, by ya, honor

We dont wanna die, nah, we just wanna fly
Eva felt like you just wanna get away man?
Its the movement, I dont think y'all heard me man
Its the movement

The celebrations the movement, man we young and
confused
And to ambitious to lose it, just see we lovin' life
Since we was just critics they say, that we'd be go

gettaz

This is the movement, man we young and confused
And to ambitious to lose it, just see we lovin' life
Since we was just critics they say, that we'd be go
gettaz

Hey that's wut the homie told me
