What you hear is the voice of a prince in his prime  
I articulate and other just rhyme  
I paint the picture nigga I'm Picasso  
Raw from the brick to the nostril hostile  
Sick and I seek no cure speak nothing but the truth  
The shit keeps ya boy so peeuw  
Never will I sound like he is not be though  
I'm on my own dick my no hoe  
Couldn't be in the same room as octane  
I see you doin' ya thing but you ain't the same

Now I'm sittin' poolside with bad females  
Wipe off the gucci shades yeah I can see well  
Touch my mula I'll choke ya like spreewell  
Mercedes drop a baby and you know it's v12  
Pound for pound we the hottest doin' it  
Anything I want outta life I'm pursuing it  
Ain't respecting the game, they just ruin it

I'm a bring hip hop back, watch how I'm doing this  
Flood the whole game, then float like noah  
Slip in the well and sing hymns like jonah  
On the stage alone, one mic, I'm a loner  
I'm the heartbeat to in my city on the corner  
So they call me swagger doner since life is my I'm a  
stagger on her

[Chorus:]  
Yo soy numero uno  
Yo so optimo  
You want more nina bonita  
I'll give you more, I'll give you more  
Left side scream, right side scream  
Middle to the top  
You want more nina bonita  
I'll give you more, I'll give you more

See the money means nothing if I can't hear you  
To get here  
If I only knew what we went through  
Blood sweat tears  
Turn it into bright lights along with cheers

Never will I move like he who is not, I'm on my own shh,  
I'm on fire

Hot like flame, the flow is not the same  
I'm the connect, respect the left lane  
Te pace has been set, ain't no stopping me  
Jewelery alone can buy property  
Get money split it 2 ways, the new face tycoon status  
what can you say  
It's irrelevant man, we selling out stadiums  
Staples center to the palladium  
Entertaining them  
Giving you numb one

[Chorus:]

Yo soy numero uno  
Yo so optimo  
You want more nina bonita  
I'll give you more, I'll give you more  
Left side scream, right side scream  
Middle to the top  
You want more nina bonita  
I'll give you more, I'll give you more

Scream  
Scream  
Scream
