You now rolling with bow weezy baby,
But tonight you can call me shad mose (yeah!)
You know I had to do it for the ladies.

I got her body trembling when I'm licking it
And love it when I'm sticking it
She like to do it with the lights off
Don't I get you wet when I'm kissing your neck
No time for games gon head girl take your clothes off
Beat it from the back while I'm gripping your waist
pulling on your hair
Tell me girl how you like it
And when I put it in your mouth
Swallow it whole
You like cake right? so taste my icing
We can fuck on the beach so everybody can see
If that's the kinda freaky shit that you're into
And the tracks so sexy
You got me feeling horny; I can fuck you to this
instrumental
I got you wet don't I?
And she don't mind me with other chicks as long as I
give her the dick
And I'm a dog I'm Bow Wow
So we do it doggy style that always make her come
quick
And listen my girl ain't colder she a lil bit older
Give head like a porn star
And she make my thang salute like a soldier
Give it to me now

Damn girl you the best at it; you got me feening like a
crack addict
Sure enough as I bust she can't get enough
She rolled the blunt and then we get right back at it,
Know what I'm talking about?
Real thick itty bitty waist
Open up wide how good it taste
Oooh girl you soo nasty
She want me to ehh! all over her face like

Damn...
You know I'm nasty
She know I'm nasty
She know I'm nasty
She know I'm nasty

Now do it for the ladies baby

How bout a little foreplay or maybe you could role-play
Let me ease your stress ooohh cause I can tell you
been working all day
I want to eat you like a buffet
Baby you can have it your way
Whips, chains, handcuffs
I know you like it rough
And I ain't talking bout the car babygirl when I say I got
a Magnum
Bad chicks I'm bagging them
Bedroom time I'm smashing them
And I might be short but you know what they say
Big things baby come in small packages (me!)
Turn around let me smack that
Nah turn around let me tap that
Babygirl let me tap that

Now do it for the ladies baby.
And I'm live from a mothafucking u-stream.
U-stream live, man hit me up 614.360.1668
Dade baby that's the number get at me!
