[Intro]

D.S: We don't understand

C. Chico: Do you understand?

D.S: We don't understand

D.S: We don't understand, Oooh, oooh

[1st Verse: C. ChiCo]

Wars separate us

Where's our saviour

From this disaster

This madness is growing faster

A good question would be when will the world go  
under?

Imagine waking up by weapons when your home gets  
plundered

Imagine seeing your kids get killed

Or being born with a disease that won't heal

The whole truth about the war victims is concealed

It's what I think when the news prints seems unreal

But I believe the truth will be revealed

No lies will forever be sealed

We should bring it back to when it was about peace,  
signs and love

I hope for a future where your colour won't judge

The person that you are or the way we treat each other

We should all get treated equally like a brother

Or a sister we the same

People the clock is ticking

We are close to the deadline of our change

[Chorus: D.S]

I don't understand this killing all the time

I don't understand all the violence in the world

Open up your eyes now, you just killed a little girl

(You've got to open up your eyes)

You've got to understand what you're doing isn't right

You've got to understand, that it's time to stop the fight

You've got to understand, that peace is what we need

[2nd Verse: C.ChiCo]

Starting wars is definitely not a way of making peace  
If a nation needs money then war is the key  
Imagine being forced to get into the battle zone  
Fighting for what the government does not but wanna  
own

What they tell you is totally different  
That you kill n' capture terrorists for a freedom mission  
And back home they say the same in the television  
We live in a world where we hypnotized by the system  
With honest media we would know who's responsible  
And why the Middle East is the battle rendezvous  
I couldn't get the puzzle to match  
Until I studied the fact  
I saw the attack on Iraq was no payback

Is it about peace?  
I mean to kill our own people  
To me, doesn't sound in any way peaceful  
There is no reason for taking innocent lives  
Not for any side all of this for what & why

Isn't it enough that 100 000 die daily?  
Of starvation and a big amount are hungry babies  
I don't understand, but I do believe that terror ain't our  
biggest threat

[Chorus]

[Bridge: D.S.]

What do I see when I read the newspaper?  
A girl was raped last night, a boy was killed

I don't get it, this world is crazy, evil things happens  
everyday  
And what do we do? What can we do?

If I'm honest, I don't even have a clue  
Cause, money, you'll do anything for money,  
You kill for money, money rule this world

[Chorus: D.S.]

I don't understand this killing all the time (don't  
understand it)  
I don't understand all the violence in the world (It's a  
crazy world)  
Open up your eyes now, you just killed a little girl  
(You've got to open up your eyes)  
You've got to understand what you're doing isn't right  
(It ain't right)  
You've got to understand, that it's time to stop the fight  
(stop the fighting/war)

You've got to understand, that peace is what we need  
[Outro]

C. ChiCo: What is wrong with this world?

D.S: I don't understand!

C. ChiCo: Why can it be peace and love?

D.S: We don't understand!

C. ChiCo: Why is it the way it is?

D.S: Does anybody understand!?

D.S: Don't understand (x7)
