Here we go, baby that's fa sho  
Uh here we go, yeah  
Rest In Peace DJ Screw, my nigga F-A-T P-A-T  
Mafio, you know what I'm saying  
Some of H-Town's finest  
We gon show up and po' up, all the way till we blow up

[Lil' Keke]

Rest In Peace, to the real DJ  
Chopped & Slowed, you know the click don't play  
Rolling down the strip, with the high beams on  
Let 'em see the Roley, while I'm talking on the phone  
Things getting better, talking bout the cheddar  
Riding up on the slab, chromed out fo' letter  
B-E-N, to the Z  
The 500 coupe, drove by Lil' Ke  
Each and every day, I'm trying to get the feddy  
Thoed in the game, I got's to stay ready  
H-Town finest, ice to the flo'  
Southwest connect, baby that's fa sho  
Better get your's, cause I'ma sho get mine  
Commission rich nigga, I ain't hard to find  
All about the cash, so I mash on the pedal  
The S.U.C., on a whole 'nother level

[Hook]

I say one for the money, two for living layed  
I'm a real G, that got's to get paid  
Hustle grind, that's all we do  
Southside for life, jamming nothing but the Screw  
One for the money, two for living layed  
All my real G's, that love to stay paid  
Hustle grind, do what you do  
On the Westside, yeah them boys jam Screw

[Lil' Keke]

Rest In Peace, to my nigga P-A  
Think about my nigga, every god damn day  
Back to the pad, gotta make 'em feel that  
Never leave home, without the chrome plated gat

Clocking much do', cashing much green  
Since day one, we been the freestyle kings  
Since the start, it been a Screwed Up invention  
Don't worry bout shit, I go hard representing  
My niggaz is gone, but guess who holding it down  
Southside for life, welcome to H-Town  
The Don is back, yeah the one and only  
Puffing on doja, for all my dead homies

[Hook]

[Lil' Keke]

To the ghetto stars, trying to get that thang  
Stacking chips high, this a hell of a game  
Never giving up, on the shit I love  
Smoking doja sipping syrup, that's the life of a thug  
Rest In Peace, to a playa for real  
Independent black owned, with a major deal  
Avarice and Commission, nothing but addition  
Leaving out the game, with a bigger position  
Hustle grind, that's all we know  
Show after show, plus we push snow  
Stuck in the game, so I got's to win  
Getting paid all night, then I do it again come on
