(\*talking\*)

This gon come, from the big book  
Hood classics check it, the whole world that's right

[Hook - 2x]

Shed tears for the ghetto, did they hear my cry  
Trying to get rich and live, 'fore it's time to die  
Hold your head up, my niggaz and stand tall  
Love it winter another spring, another summer and fall

[Lil' Keke]

It's going down, you know the bible searching  
Watching back snatched, to he the ATF working  
Two time felon, hit the do' bailing  
Boys better duck, bust your head like a melon  
It be do or die niggaz, on the street  
Young niggaz 13, rolling mad heat  
A jungle out here, call it Mad City  
Plus these niggaz snitching, and they really acting  
shitty  
Play it safe mayn, one deep hitting stangs  
Since the year '85, mayn the game changed  
When the streets watching, you better watch ya back  
Cause you can be, looking down the barrel of a gat

[Hook - 2x]

[Lil' Keke]

Back in 9-3, we had the Rock Hall jumping  
Young niggaz up all night, straight pumping  
Fifty packs and qaurters, halves and zip's  
Give a crash star a dime, all night she flip  
I'm on to four and a half, pay two for the powder  
Now she flipping wholesales, every hour  
If I cook it myself, then the price is cheaper  
Stepped off the corner, start working my beeper  
Got a half a eight-five, prepared to go live  
Hitting corners hitting cuts, I got's to ride by  
It's on mayn, cell phone mayn  
Got the bird sixteen, getting gone mayn  
This is street life, under the street lights

The trunk punching on the slab, like a Roy fight  
Get a fifth of Alize, and take it straight to the dome  
Ain't no sense in bullshitting, get your thug on thug on

[Hook - 2x]

[Lil' Keke]

Now the judge tripping, she wanna give me a nick'  
But my workers on the street, they ain't finished the  
brick

This a bad life, time to do some'ing else  
Like a million c.d.'s, flying off the shelf  
Stocks and bonds, mutual funds  
Making money by the ton, packing plenty of guns  
This the good life, better get it while ya can  
My click be in the mix, yeah we back in demand  
Steady paper hunting, not no weak fronting  
And ya only live once, better start stunting  
It's the ghetto, another level  
And I'll dig a bigger ditch, with a shovel come on

[Hook - 2x]
