Caught in my favorites I smell just like the bill a shit
Yea, we in the same whit but you trust Benedict
Yea, we on the same cut but we on some different shit
We in VIP poppin' bottles just to spill a shit
Huh, poppin' bottle just to spill a shit
Hold up! I think I gotta hitch the gear
You know Kim, the realest bitch up in the industry
You know Kim, the realest bitch up in the industry
You know Kim, the realest bitch up in the industry
With the fact, I'm the realest bitch up in the streets
Ask your man, I'm the realest bitch up in the sheets
I don't keep it a hundred, I keep it a G
You know I stretch my man like every week
He acting up (ghetto ghetto ghetto)
Or into the next one, or into the fresh one
Video stones, let me know I got that S1
Bitches throwing shots, they gon fuck around and
catch one
It's the Queen Bitch here, I'm a flyer than a Jetson
That mean I'm futuristic
Call the coop, Mike Bivens is that new addition
When a boss bitch talking you should sit and listen
Take notes, pay attention
It's what separates the fakest from the realest, bitch

What we do with it?
Countin money, mits, countin money, mits, countin
money, mits
What we do with it?
Countin money, mits, countin money, mits, countin
money, mits
What we do with it?
Count money, mits, count money, mits, count money,
mits
What we do with it?
Countin money, mits, countin money, mits, countin
money, mits
