(Lil Kim)

\*grunting\*

huh huh

Catch me in the spot

Lil Cease in the drop

About half an ounce inside the ziploc(uh huh)

Knocking the new one one deuce on the deuce

Me and my old flame and his name is Bruce(yeah)

But....blew my eye when his girl drove by(huh)

Told me bye then he winked his eye(uh oh)

I am too dime for this

To fly to curse(yeah)

Through his jacket out first

Then slammed in reverse

(112)

Oh baby!

You need to know

Weve been in love

But never no love like this

I need to know

Just how you feel

Let me know if this love is real

Chorus: (2x)

I am tired of waisting time on you

So tell me what you wanna do

Is it another man, holding your hand

Why is this a mystery?

Oh baby cant you see

Girl your the only one I'll ever want

The only one I ever need

I think its time

For us to grow

Weve been friends now for far too long

The way you kiss

It turns me on

Let me know if you feel this strong

Chorus 2x

Bridge:  
Give me your love  
Don't you know that I need your love  
I need you in my life  
Stay with me  
I'll care for you and me in our lives

(Lil Kim) (grunting in the background)  
Just pretend like we friends and do our own  
thing(c'mon)  
With the chinny bang bang  
But let the phone ring (I like this)  
From the first night I knew you was untrue  
Ex-girl came through, she said she missed you  
Panties in the bathroom sink, hot pink(hot pink)  
What's a girl like me supposed to think?(c'mon)  
I'm a bad girl(bad girl)  
You shady  
I get shady(shady)  
Tie up your old lady and jet in the mercedes floatin

Chorus 4x until fading
