Mm-hmm, ye-yeah..

[Twista]

Here come a bitch with the fly puss', and a nigga with  
the fly dick

In the Mickey and Mallory mode, rollin through the  
streets on 24's

On krunk screamin, "Die bitch!"

Bout to shut yo' shit down, anybody that opposes to  
payin us a fee false

If the straps don't bleed y'all

We put stitches in yo' motherfuckin dome like a league  
brawl

(Come and roll with this)

Take a journey to the realm of the truth when I bust this

It's the Duke and the Duchess

Leavin haters 'buked and on crutches

Niggaz you cannot touch this

It's a new collaboration of Thug Luv

between the Thug Queen and the Thug Lord

More power than a drug lord

Meant to be because we love each other the way we  
love war

Gotta rider bet hug yours, cause I'm full of ambition  
and ammunition and a 50 like I smoked a sticky stack  
of hash

Ain't no missin on no critical condition

Murderin is the mission and we can bust a itchy atcha  
ass

Feel the flow when I drop it

Don't when to stop it, I'm goin pockets and layin bodies  
down

Feel adrenaline from me and Kim and them

We got it sewed from Brooklyn to Chi-Town

See the artillery, we don't fuck around with silly games,  
plenty thangs

Nigga plus I got an illy aim, stick 'em up, steal his chain

Then I spill his brain, then I feel his pain

Some of the consequences when you dealin with a plug  
thug

And I'm backed up by the Queen, we gon' take over the

world  
Whatchu know about Thug Luv?

[Chorus]  
You can't fuck with us; do it like a hustler  
Gotta keep it gangsta, can't no one collide with us  
All my true thugs and all my real bitches  
Won'tcha come and ride with us  
Do it like a hustler  
Gotta keep it gangsta, can't no one collide with us  
All my true thugs and all my real bitches  
Won'tcha come and ride with us

[Lil' Kim]  
It's the T-W-I-S to the T-A, K to the motherfuckin I-M  
Bout to shut yo' shit down  
Other albums come out ain't NOBODY gon' buy them  
Now who gon' deny them? I'm scared of myself, don't  
nobody wanna try Kim  
Y'all know you done fucked up  
(now whassup - y'all better come roll with us)  
Who's you Mister? It's Lil' Kim and Twista (and we about  
this)  
For those who doubt this, the game is ours (we gon' run  
you up out this)  
What a wonderful feeling when you're stealin a million  
But the billion jackpot's what I aim for  
Get your hands in the air, put 'em up, keep 'em high  
Don't want no problems - JUST GIMME WHAT I CAME  
FOR!  
Pull up on your block, eight straight Hummers  
Bout to have it locked, eight straight summers  
Bank account hold eight straight numbers  
Ain't no room for you whack newcomers  
We the people's choice because we kick that  
nasty "Hardcore" shit that you wanna hear  
Can't fuck with us, hands down we win best murder rap  
of the year  
Pounds to the misters, hugs for the miss  
Bombs in the mail, sealed with a kiss  
All my bitches pop that thing like this  
All my niggaz wave that bling on the wrist  
Some of the consequences when you dealin with a plug  
thug  
And I'm backed up by the Duke, we gon' take over the  
world  
Whatchu know about Thug Luv?

[Chorus]

[Twista] Kim is yo' flow hot?

[K.I.M.] Like a gun shot  
[K.I.M.] Twist' is yo' flow cold?  
[Twista] Well I think so  
[Twista] Kim do you got dranks  
[K.I.M.] Crist' by the box  
[K.I.M.] Twist' do you got smokes  
[Twista] Well I got 'dro, now baby we can roll

[Lil' Kim]  
Do it like a gangsta, creepin like a murderer  
Strapped while I roll on chrome  
Lookin for the ones we at war with  
When we see 'em we gon' aim for your dome

[Twista]  
Hear me Ma we can run this Earth together, come up  
worse than ever  
Havin big dreams while we back up this work together  
Let's set up shop on the block now, takin over yo' tip  
Even if we gotta slang dubs  
Go to war because I love blood, with a Queen by my  
side  
Whatchu know about Thug Luv?

[Chorus Two: Lil' Kim]  
Do it like a hustler, Lil' Kim and Twista  
Might as well ride with us  
Male groupies, girl groupies  
They're all gon' side with us  
Whatcha gon' do, it's the Duke and the Duchess  
You need to give it up We gon' take over the world  
Whatchu know about Thug Luv? [Chorus] [Chorus Two]  
[Chorus]
