Puff Daddy Featuring Lil' Kim

[Intro]

Ladies and gentlemen

We are gathered here today

To join

I see it, yeah

Yeah, yeah

I like this right here

Yeah, yeah

One-Two, One-Two, in the place to be

As you can see

I am the crush groovin'

There's a whole lot of stars be groovin' in here tonight

The record breaking and the record making

Yeah, yeah, turn this up

From the states to over seas

Every city in between I hit the scene

Catch fire like kerosene

Geting paid for more then a decade

We been blazing, y'all wasn't ready for the PD invasion

Caught you off guard, got bitches, got cars

Healin' war scars, puff smoke out of the jar

Catch flights to and fro, nigga who you know?

No one important, just another nigga flossing

Gotta seal, what I'm touching is real

You just a clone wit' a production deal

I sailed the seven seas and kept my head above the water

Sorry I left you, but now I am back for ya

But it's like we never bounced, platinum from word of mouth

Hottest niggas out

Alot better, the shit's too strong

I'm home now, daddy's been gone too long

1 - [Lil' Kim]

What you niggas want

Wanna talk slick

Wanna do shit, try shit, new shit

Who you fucking wit'

You and your weak clique  
Bitch you creep wit' got you in some deep shit  
You coppin' pleas now, it ain't a secret  
Trying to be niggas you can't even speak with  
You can't run, you can't hide  
Bad Boy 'till the day we die

Tell they all like Jordan in the fall  
On top of the hill like Lauren, Killing 'Em Soft'  
What you grillin' me for?  
Kept my name good, we from the same hood  
Made some change, put the range wit' the stained  
wood  
Now chicks, they keep they eyes on me  
Wanna grind on me  
Haters plotting so I keep my nine on me  
You can't stop 'em when them shells is popping  
Look good to the public eye, your streets is watching  
At all times, put it all on the line  
Without a care dreams of cream turn to nightmares  
No one to talk to, don't know who to trust  
Got your gun out and don't know who to bust  
It get like that though, when you stack that dough  
Can't run from it yo, that's when they get close  
So put up you guards, keep faith in God  
I promise y'all the world'll be ours

Repeat 1

Your games amaze, but alot of ways, many choices  
Can't sleep, when I do I hear voices  
Speakin' loud and clear, wait 'till you come out this year  
So I listen back cause the street is missing that  
What a world we live in  
So cold I'm shivering, slipping  
Gotta work with what I'm given, shit  
Bitches is trifling, hands out grabbin'  
Niggas hating, scheming and back stabbin'  
That's why they hang around you, just to be seen  
Type to leave a gun fight wit' a full magazine  
No blood, not hit, chamber ain't warm  
What part of the game is this? And who's side you on?  
Can't be out for wealth and out for self, won't work  
Find yourself tucked and surrounded by dirt  
In a verse I show the whole earth my work  
It got to get better because it can't get no worse

Repeat 1
