Good evening ladies and gentlemen
I am here live
Welcome to W.P.I.M.P

See, y'all don't know what it take
I'm talking about
It's hard enough to get in the industry
How the fuck do you get in the industry, and then stay
there

Every time you come out, you got some more hot shit
Doing some more shit that bitches round the country
go
That's what the fuck I meant to do
That's, living legendship

You just livin', [Incomprehensible]
But if you don't watch your mouth
Somebody might take care of that apart too
