Ooh, hmm, I got some nerve
Sitting up here thinking about
How it would be if I was your girl
Things I could do for you

Love you the way she never knew how
If only you could imagine
I could make you believe for real

Oh, she can never really take care of you
She's too young in the mind
To be there for you like a real girl should be
That's why you call on me
To be loving you unconditionally

'Cause anything she can do
(Ooh)
I can do better
(So much better)
I can do anything better than she can, so

What kind of girl is she to leave a family?
She could never be me
'Cause that's not what I would do
No I'm not her
I'm still loving you baby, everyday, ooh baby
(Loving you, kissing you, touching you, feeling you,
hugging you)

And remember the time that she left you
All alone with your son
And I came to your rescue 'cause only I can
(Only I can)
Treat you like a man
And I know you'd rather share your life with me

'Cause anything she can do
(She can do)
I can do better
(I can do better)

I can do anything better than she can

(Better than she can)
She's not strong enough for sure
I'm ready to be everything she could never be, whoa

What kind of girl is she to leave a family?
(You and your son)
She could never be me 'cause that's not what I would
do
No, I'm not her
I'm still loving you everyday, baby, yes I am, ooh ooh
(Loving you, kissing you, touching you, feeling you,
hugging you

Sometimes I feel like I'm the other woman
(Other woman)
And she'll always have more you than me
But because she had your child
I'm the one that made you smile
I'll be there for you through thick and thin
Baby, can't you see?

What kind of girl is she to leave a family?
(Girl is she, family)
She could never be me, that's not what I would do
No, I'm not her
I'm still loving you baby, everyday, oh, oh
(Loving you, kissing you, touching you, feeling you,
hugging you)

What kind of girl is she to leave a family?
(Girl is she, family)
She could never be me, that's not what I would do, oh
I'm still loving you ooh, ooh, hmm, hmm
(Loving you, kissing you, touching you, feeling you,
hugging you)
Loving you, ooh, man, I love you
