What, say one word and you die
And I'll make you see
The real fucking bitch you've been
You, you never see the death
I outta show you way
When i get along to kill you fucking bitch
Go!

So, you better step back
Cause I ain't gonna tell
To why you pull the pain from me
What, and all I say is strong
To you are true apart
I tell you fucking bitch you died

When i will fuck down
Feel in together world
I'll take it to me
Asshole are shove me down

(Hey), do you never let it go ? save from my time
If I tell, knuckleduster beat you six feed under
(So), so I kill you as fucking insane and I don't swear
you see it again
Did you know, knuckleduster beat you six feed under

When i will fuck down
Feel in together world
I'll take it to me
Never be some I afraid

(Hey), do you never let it go ? save from my time
(Bitch!) If I tell, knuckleduster beat you six feed under
(So), so I kill you as fucking insane and I swear you see
it again
Did you know, knuckleduster beat you six feet under
