I wanna ask you one question, you wanna be my Juliet
Or other words we could just be friends lala lala
lalalaaa
Mary had a boyfriend, his name was Romeo
And everywhere dat Romie went, those girls were sure
to go

I'll be your boyfriend
I'll be your girlfriend
I'll be your boyfriend
I'll be your girlfriend

If I be your boy would you be my girl?
If I be your boy would you be my girl?
If I be your boy would you be my girl?
If I be your boy would you be my girl?

I'm lookin' for a girl who can touch my heart
Someone pretty, quiet, she gotta be smart
Hair curly, dimples, beautiful smile
Sense of humor, sweet, to shy to be wild

Likes music from top of her grades, A student
A dime from her head to her toe shot by cupid
Write letters to let me know how she feel
One of a kind good team you know that she's real

My Juliet call her my baby boo
Ain't know other girl made me feel like you
You always on time, you know that you mine

When I first met you ma I knew it was real
I'm thinking movies and popcorn what's tha deal
I'm a lil' soulja so we all need love
You be tha baseball, I be tha glove

I mean after school we could walk together
Here's my two way girl, we could talk forever
Who cares, you care we like Ja' and Ashanti
I care

I'll be your boyfriend

I'll be your girlfriend
I'll be your boyfriend
I'll be your girlfriend

If I be your boy would you be my girl?
If I be your boy would you be my girl?
If I be your boy would you be my girl?
If I be your boy would you be my girl?

Long hikes, even got his and her rights
I wouldn't know what to do if she was out of my life
We been together so long, she considered my wife
Got a lot in common, she even likes what I likes

Takes pictures, she hangs wit my sisters
The lovable type lots of hugs and kisses
As I take time off just ta be wit my girl
Six flags dis is on she's apart of my world

The feeling was on we could paint together
If love is like ice we could bling together
My lucky charm, I mean my four clovers
But we young now but I can't wait until older

I'll be your boyfriend
I'll be your girlfriend
I'll be your boyfriend
I'll be your girlfriend

If I be your boy would you be my girl?
If I be your boy would you be my girl?
If I be your boy would you be my girl?
If I be your boy would you be my girl?
