True Love
[Chorus 1]

Love has truly been good to me
Not even one sad day or memory I've had
Since you came my way
I hope you know I'll gladly go
Anywhere you take me there ain't no limit to this love
I'd follow you to the moon and the sky above

[Verse 1]

The first time I met you
I didn't sweat you
My Juliet I knew that I'd catch you
Gave you the key to my heart you unlocked it
A perfect match you the plug I'm the socket
As time moved on we became friends
I knew it was love at first sight and it wasn't 'bout the
dividends
You was there when I needed you
I remember writing letters on the road I wanna be wit
you
I know we young and we got time
Little soldiers need love so girl I wanna make you mine
We could roll together, go to shows together,
My best friend girl lets grow together

[Chorus 1x]

[Verse 2]

We walk together, rode busses together
Ya moms call us jelly beans, we stuck together
We at parks playin hide-go-seeek
I find you, or you find me
This was meant to be they call us lil one and shorty
Find us hugged up at every school party
We study together, ball together
Somebody said cupid musta brought us together
I love your cute eyes and you love my tight braids
Play video games almost everyday and when we not

together
We on the phone talkin' 'bout our
First kiss and we don't wanna be alone

[Chorus 1x]

[Verse 3]

And I remember, so wild how your smile made me feel
Bright like the sun shine I'm so glad that you're mine
You my Juliet I'll never let the jealous ones between
And that's a safe bet and we could get to
Studyin after school is over homework is a must so you
can come over
Afterwards we could hit the mall sip ices and cotton
candy
After that come chill wit the family

[Chorus 2 (Solange)]

Got to tell you how you have me
I'm so happy that you came in here and changed my
world
Bye Bye sadness hello Romeyyyyy your the only boy
That's why Solange is so in love
I'd follow you to the moon and the sky above
