When you in love that was in seem  
People always somethings to say  
But I had enough, living in my dream  
No one take that from me  
They can say, they wanna say  
They don't seems like I do  
They think it crazy felt this way  
But I don't mind just waste of time

Can't change the way I love you  
You be the one, my whole life through  
There's nothing they can't say it or two  
To change the way I love you

Time after time  
Again and again  
that telling me way should be  
Sometime has seems, that is even my friends  
They don't won't see me happy  
They can say, they wanna say  
They don't seems like I do  
They think it crazy felt this way  
But I don't mind, just waste of time
