Something might happen anyone I want
but is the truth
miss it happen thngs are same
To rely on you
You challenge every way, but I like
And I live each night and day til you'll mine
but your only stop you'll never let it show
You got me wondering, but boy, you got to know
Do you want me?

You're so hard to get
You are only one I can't forget
You got me wonder we met
You're so hard to get
You're so hard to get
You are only one I can't forget
You got me yesterday we met
You're so hard to get

You're only love this game you only guys
You can't forget
But is only one game that I like to play
It's hard to get
You're only guy I found, but to get your love and you
Desire was full you went to me I never knew
Only that I knew everyone want this
love is talking, but when I always miss
Do you want me?

EVERYONE wants this stuff
You're only one
