I'm lying here, thinking of you
And all the things you do for me always
And i'm so lucky just to have you near me
I feel the magic when I look in your eyes
Waiting here so long, just to hold you in my arms
I will wait for you forever

Chorus:

Honestly in love, with you
Honestly
Honestly in love, with you
Honestly

The things you say to me last a lifetime
and I cherish all the things we have
I can't remember when, i've been so happy
And i'll be forever your's always
Let's turn out the lights
And just hang out all night
Hold me in your arms forever

Chorus

Break

Waiting here so long
Just to hold you in my arms
I will wait for you forever

Chorus
