In paradise  
I got a feeling that something is wrong  
That look is telling me your not happy  
We never listen to our favorite songs  
Do you remember, the way you held me  
Now i won't let you hurt this love away  
There was a time when you held me tight  
Think about the dreams of yesterday  
Forget the heartache that you feel inside  
Chorus  
You are the sun I am the sky  
Together we'll live in paradise  
Our hopes and dreams will dine our life  
In paradise  
So many times I look into your eyes  
I see an image, a man whos crying  
You try to tell me but i realize  
Its hard to make it  
We'll keep on trying  
Open up your heart lets get away  
Just take my hand it will be all right  
Leave it all behind no matter where  
We'll find the answer deep into the night  
Repeat Chorus 2x  
Memories  
Of you and me  
Falling in love  
Tell me how  
We'll always be  
In Paradise  
Repeat Chorus 3x
