"So I Cry"

I will my love
You came to me
If only last long
It wasn't complete for me
I was let go, waiting my pain
Boy, now I know
You won't be the same
I told you, to hold me
won't you ever let me go
If I wait for your heart
You come back to me
And give me your love

Still I cry
will that without your love
whenever still in my life
You never touch my touch for you now
Still I crying, I cry
will that without your love
only you never steal my heart
You never turn my touch anytime to open my eyes

I say goodbye
You came to me
Didn't last long
I try not meant to be
Have to move on, never again
This time I sure
You won't be the same
If I told you, to hold me
Boy ever let me go
If I break up your heart
You come back to me
And give me your love
