alright im thinkin bout getting slumed out fuck that i

been in the trap hustlin all night were its hard to keep
my sneakers clean
i need my do it fluid, whats do it fluid, i knew u would
ask
whatever liquor u put up in your body when u wanna
get trashed
so grab me a glass and poor it up fast, and dont forget
the pass pimpin the blunt
i can hide your ass to be passed if u dont stay close to
the front
im simply playin with a harmful brain ill kick off my
shoes and relax my feet
then put on some sounds. smoke on a pound listin to a
three six mafia beat
got a cup in my hand and blunt in my mouth, im
straight as a mafucker now
with a masterplan that will change the land, and oya im
from the dirty south
i be in the hood from dusk till dawn, late at night till the
early morn
so when i get home im gonna be need something for
me to be sipping on.

Trap all night sleep all day tired ass hell and my body
aches
I need some of that do it fluid
I need some of that do it fluid
Trap all night sleep all day tired ass hell and my body
aches
I need some of that do it fluid
I need some of that do it fluid

throw way far out the map, memphis aint in sight
crown royal and purple sizurp mixed up in a berry
sprite

no white
theres green in me and hennessy all over my red
monkey jeans

seems

aches
I need some of that do it fluid
I need some of that do it fluid
