

Lil' Wyte "Drop It Off"

Visit "[Drop It Off](#)" on MotoLyrics.com

[Chorus: repeat 4X]

Drop it off drop it off
Bitch I got a sawed off
Put that money in the bag
Hoe I'll blow yo ass off

[Verse One]

It all started out cool and calm, we had it under control
We had blueprints to the bank from roof to floor
My nigga Paul had them yawks and bullet-proof vests
Juicy dropped off the 600 the get away the best
We had an in-sider that was working for Union Planners
She told us everyday at 6 o clock they turn off the
cameras
At 6 o five the guards go on break for milk and
banannas
Six thirty guards come back from break and back on
with the cameras
So that gives us twenty five minutes to get in and out
We gotta do this shit so quick and slick without a doubt
I got some folks that be down to ride all it takes a shout
And if its business they comin quicker thats what they
bout
God as my witness we gonna get this one some way
some how
With thirty million dollars in diamonds we cant miss out
The plans in action tomorrow we gon case it out
Give me twenty four more hours and we gon clean it
out

[Chorus]

[Verse Two]

It's going down five o'clock and we loadin the trucks up
Get the 40's get the vests get the masks get the pump
Dont forget the smoke bombs to cloud them out when
we get done
Man this shits about to get so hecked up under the sun
Six o clock pullin up and we know surveillance off
Six o five guards are breaking and were waiting on the
cough
Thats the sign to come in and lay everyone on the

ground
Units in faces of customers so they dont make a sound

Keep your guns up and your masks on till the cash
gone
Now lets get this thirty million in diamonds and mash
on
8 minutes left on the clock before the cameras click
Back into rotation on the bank and they scope out the
shit
Got the jewelery got the loot, situations looking cool
All of a sudden a cop comes outta no where and he
start to shoot
So many rounds is wizzin by me I dont see how I aint
dead
Smooth? stepped in the way with a AK and shot the cop
in his head

[Chorus]

[Verse Three]

We got the diamonds in the stash spot, and 10 in he
tank
But the police on our tail an officer down in the bank
So we hit the gas threw the masks, lost the vests and
ditched the gats
Made a corner, hit it fast, man these folks all on our ass
Push the 600 to the limit, we doin a dance
Fraiser hit the brakes goin 150 tryin to make em crash
Trippin in the back seat cause im high up off that mary
jane
Talkin crazy, its over this time and it aint funny man
Ballin down Lamar dodgin cars and we aint tryin to stop
My Rolley onion came off of a side street and smacked
a cop
But they still comin, its seven of em, and they catchin
quick
After Sunroof I through a smoke bomb and they got
lost in it
Make a left a right a quick left, pullin to this driveway
Turn your tail lights off and just park and dont go no
where just stay
Pokey off our trail hot as hell but we still gotta shoot
Back to headquarters to come forward seperatin the
loot
