Go on and slip me two Xanax Bars - I'm ready to git fool
5th to Crown to wash it down, I'm downtown snapping
rolls
Ain't no shame up in my game - in fact I'm mentally
deranged
Oxycontin in my system - man I'm feeling kinda strange
Watch me choke about this dope - Blueberry from
Texas
She wanna git up in rotation that's too bad cause I'm
stressing
'Bout now its 1:30 am - 11 Percocets just entered me
15 minutes from this second - I'll be crawling on my
knees
Laughing at the crowd of all the clowns that be
surrounding me
Take another Lortab to call me down and let me see
Body be relaxed - muscles be loose, and you have
stopped the pain
No more bitching 'bout your day and work and driving
in the rain
Put up wit' the fussing and discussion - I plant in your
brain
Hypnotize ya minds, like all the rest but I come through
the veins
Take a chill pill to slow me down and git back in this
game
Gatta be up on ya P's and Q's to even feel it mane

[Hook 2x - Lil' Wyte]

Oxycontin - Xanax Bars - Percocet and Lortab
Valiums - Morphine - patches - Exctacy - and it's all up
for grab
What'cha want - what'cha need - hit me up I got you
mane
What'cha want - what'cha need - hit me up I got you
mane

[Lord Infamous]

Scarecrow, scarecrow whats that you popping?
A powerful pill they call Oxycontin
But it'so tiny, that it catch you dragging
Haven't you heard big things come in small packages

I prefer the orange's with the black O-C
Take to where you can - I move about you see
Some people melt em down in a needle and shoot 'em
up
Buy I pop 'em with Seroquel like glue,
[Crunchy Blac]
See I'ma pill popper - so I'ma keep poppin' em
Gimme 20 Xanax and I'ma start droppin' em
They ain't no stoppin' him - when they in my system
Mane I really miss 'em - can you help me get 'em
I heard you have Clidina, on that fucking pill shed
Gimme some fuckn Ec' - gimme some Percocets
I need me some four bar, so I can break down
Cause a nigga like me 'finna take it to funky town
