[Lil' Wyte]

Go on and slip me two Xanax Bars - I'm ready to git fool  
5th to Crown to wash it down, I'm downtown snapping  
rolls

Ain't no shame up in my game - in fact I'm mentally  
deranged

Oxycontin in my system - man I'm feeling kinda strange  
Watch me choke about this dope - Blueberry from  
Texas

She wanna git up in rotation that's too bad cause I'm  
stressing

'Bout now its 1:30 am - 11 Percocets just entered me  
15 minutes from this second - I'll be crawling on my  
knees

Laughing at the crowd of all the clowns that be  
surrounding me

Take another Lortab to call me down and let me see  
Body be relaxed - muscles be loose, and you have  
stopped the pain

No more bitching 'bout your day and work and driving  
in the rain

Put up wit' the fussing and discussion - I plant in your  
brain

Hypnotize ya minds, like all the rest but I come through  
the veins

Take a chill pill to slow me down and git back in this  
game

Gatta be up on ya P's and Q's to even feel it mane

[Hook 2x - Lil' Wyte]

Oxycontin - Xanax Bars - Percocet and Lortab  
Valiums - Morphine - patches - Exctacy - and it's all up  
for grab

What'cha want - what'cha need - hit me up I got you  
mane

What'cha want - what'cha need - hit me up I got you  
mane

[Lord Infamous]

Scarecrow, scarecrow whats that you popping?

A powerful pill they call Oxycontin

But it's so tiny, that it catch you dragging  
Haven't you heard big things come in small packages  
I prefer the orange's with the black O-C  
Take to where you can - I move about you see  
Some people mellow down in a needle and shoot 'em  
up  
Buy I pop 'em with Seroquel like glue, I am stuck

[Crunchy Blac]

See I'ma pill popper - so I'ma keep poppin' em  
Gimme 20 Xanax and I'ma start droppin' em  
They ain't no stoppin' him - when they in my system  
Mane I really miss 'em - can you help me get 'em  
I heard you have Clidina, on that fucking pill shed  
Gimme some fuckn Ec' - gimme some Percocets  
I need me some four bar, so I can break down  
Cause a nigga like me 'finna take it to funky town

[Hook 2x - Lil' Wyte]

Oxycontin - Xanax Bars - Percocet and Lortab
