[Lil' Zane]

I was once wit a team, that, sold me a dream  
Worked all day and, got, none of the cream  
When playas ain't loyal, that's, bad for the team  
Niggas play dirty till that ass get clean  
I'm iced wit the gleam, get shiest when you scheme  
Fuck a gun nigga cause I'm nice wit these things  
Yall got me fed up, bout to go head up  
Stop playin nigga, start prayin, Im dead up  
Fuck who you run wit, get who you gon get  
Tell them niggas come quick, man you on some dumb  
shit  
Me and my nigga been folk, since we been broke  
See we together 'till the day that I get doe  
Lend doe, spend doe, throw it out the window  
Know niggas payed, got Boo puffin indo  
Shot from the pinto, and hop out the benzo  
Cops had to leave but we fled so they didn't know

Chorus: repeat 2X

Yall niggas want war (what's up my nigga)  
Then what you here for (what's up my nigga)  
You don't scare me (what's up my nigga)  
You can hate me (I don't give a fuck my nigga)

[Lil' Zane]

I got cops on the pay roll, stop when I say so  
You don't wanna quit, spray the block till you lay low  
Niggas have change now, got a little fame now  
Come around the hood, you can see im the same now  
Got a little ice though, still wit the wife though  
Love all my bitches but, money is my life hoe  
Never gettin twist up, bitches I done mixed up  
Mad at me now cause my man want his dick sucked  
Raised, turn the bricks up, born wit my fist up  
Niggas can't live the life, then give the shit up  
Survived in the rap game, supplied in the crack game  
Really don't matter my nigga, they both the same  
I always rhyme, I always bust nines  
Always wanna to fight a nigga one more time  
And even if I win, Im'a beat his ass again

Wont quit till your head split, BI-ATCH

Chorus

[Lil' Zane]

This is how we do it to em' (world wide) give it to em'  
now

This is how we do it to em' (world wide) put em up now  
We about to clown on em' (world wide) ride on em' now  
We about to blast on em' (world wide) mash on em'  
now

This is how we do it to em' (world wide) give it to em'  
now

This is how we do it to em' (world wide) mash on em'  
now

This is how we do it to em (world wide) fuck wit me now  
This is how we do it to em', this is how we do it to em

Chorus: repeat to fade
