I walked a long, long way down there
Just to see you, feel your glare

I wanna sleep, just drift away
Mother Kali...just tuck me in, take me in

Take me out!

Heaven, Earth, and the Underworld
Give me the white, the red, and black

It's all I ask, it's what I need!
Please come to me, I need to feed!

If you let me love and be...true blue
I'll be more than just...a dead man's hand on you
Tell me lies won't be denied
Mother Kali...will you be my bride?

I'll paint your roses black, show you heaven
Just to feel your skin, for one more second

It's all I ask, it's what I do!
Love me one more time, I'll let you kill me too!

If you let me love and be...true blue
I'll be more than just...a dead man's hand on you
Tell me lies won't be denied
Mother Kali...will you be my bride?

[Solos]

If you let me love and be...true blue
I'll be more than just...a dead man's hand on you
Tell me lies won't be denied
Mother Kali...will you be my bride?

Yeah, yeaow!
