Go! Ye-ow!

Pain is really what you wanna be

... gonna say

...

We are ...

Soon be there, the moon in the sky tonight

We're burning on a purified

Smash your face and then I beat it down

Are we really gonna die

Get up and fight, release your rage, come on and fight

Standing straight faced, it is your fate, calling my  
name

Calling me pain, and if you stay, you'll bite the scythe

Waiting for you I want to just tell you

If you want peace, prepare for war

Fuck!

Solo

Get up and fight, release your rage, come on and fight

Standing straight faced, it is your fate, calling my  
name

Calling me pain, and if you stay, you'll bite the scythe

Waiting for you I want to just tell you

Get up and fight, release your rage, come on and fight

Standing straight faced, it is your fate, calling my  
name

Calling me pain, and if you stay, you'll bite the scythe

Waiting for you I want to just tell you

If you want peace, prepare for war
