How it happened, I haven't a clue  
I just woke up one mornin' and was over you  
No Hallelujah chorus, nothin' written in the stars  
Just a peaceful feelin' settled on my heart

Oh no, there ain't no easy way  
No deed that you can do  
No magic prayer that you can pray  
Oh yeah, time is what it takes  
To make a heart start bending  
Where it used to break

It was wishful thinkin', thinkin' I'd be all right  
With a pep talk from my sister and a couple good cries  
It only got better when I got it through my head  
Ain't no gettin' 'round a heartache, got to roll with it  
instead

Oh no, there ain't no easy way  
No deed that you can do  
No magic prayer that you can pray  
Oh yeah, time is what it takes  
To make a heart start bending  
Where it used to break

Little by little  
One tear at a time  
I felt like I was dying  
But I made it out alive

Oh no, there ain't no easy way  
No deed that you can do  
No magic prayer that you can pray  
Oh yeah, time is what it takes  
To make a heart start bending  
Where it used to break

Yeah, I make a heart start bending  
Where it used to break
