Post Dramatic/Enigmatic trauma  
Here we go again  
Every days the same/Oh how I dread beginnings  
Still awaiting my, still awaiting my end

Alone and Distraught/Here I lay  
Slightly fevered from today  
Cannot bare what they say  
Self loathing, I'll fade away (away)

Just leave me lying here  
I'll close my eyes/escape this life  
And sleep to pass the time

Oh How I miss the days... were golden  
But now deprived  
Pondering the question  
Why the fuck are we alive?  
Growing older now, My skies turn to gray  
If killing is a sin, then I can't win  
And all hope is lost

An act to seal my fate  
I can't I am afraid  
To inflict the pain, to create my own demise  
Oh please, release me from the pain of living  
Beyond Comprehension  
Victim of Circumstance  
Lost with no direction  
I can't face the day again

The hole that I have made  
The fear that it creates  
To know that I can't go on  
But I don't have the guts to end it all  
Oh please, release me from this never ending hell

And I dream a thousand years astray  
Just close my eyes and wish to die and never see again  
When I wake there shall be no today  
Only deaden eyes that welcome me away  
Into obscurity

Release me  
Help me find  
The door that will open  
Release me

Slipping away again  
Struggling to find my way  
...the light that I can't find  
Will pain Subside?
