(Whoa!)

It's the same old aggravation

Undercover love is still a sin (That's right)

I just can't deal with complication

I'm givin' up I'm givin' in

You slipped right through my fingertips

You're just too hard to please

[Chorus:]

I'm rainin' down on you

Down on the pain that you put me through

Been up and down with you

Down on the love that I thought so true

Oh, it's an impossible situation

Been pushed every way but your direction (No, no)

You stuck a knife in my achin' heart

Then left me here to bleed

[Chorus]

Down, down, down on you

Down, down, down, down on you

[Solo]

(Aw, I've had enough of this)

Ow!

You slipped right through my fingertips

Was I too hard to please?

[Chorus]

Down, down, down on you

Down, down, down, down on you

Down, down, down on you

Down, down, down, down on you
