Every now and then we all want somethin
Even if there's no way of gettin it
If i stomp my feet quick that maybe be a way around
Could i get myself around it

Get me what i want
Everything that i've got
So give me what i want
Cause im a big shot

Don't wanna always have to be so nice don't
Wanna hear u say well that's just life
Ill join u out when i open my mouth
And make my way around it
I always make my way around it

Get me what i want
Everything that i've got
So give me what i want
Cause im a big shot

So give me what i want
I always get what i want
U don't wanna see me when
I don't get what i want
That's not what u want

Im not about to take no
For an answer no if i tell
U i can't im still gonna go
I did it by my self and i still
I found my way around it

Get me what i want
Everything that i've got
So give me what i want
Cause im a big shot

So give me what i want
I always get what i want
U don't wanna see me when

I don't get what
I want that's not what u want

Its not to lovely
It can start get ugly
It really bugs me if
I don't get my way

Get me what i want
Everything that
I've got so give me what
I want cause im a big shot

So give me what i want
I always get what
I want u don't wanna see
Me when i don't get what
I want that's not what u want
