Visit "[Promises](#)" on MotoLyrics.com

its been another day thinking what could have been
it gets so hard
but its not what it seems
what i wanted to be
did i try to hard
then i hoped for something much more
just before this youll have to

promise
we wont fall apart
promise
this right from the start
promise
on heaven that you would make believe
yeah e yeah e yeah
promise
me

i dont understand what i did wrong
when i promised you
what do i say
when everything is blear
then i hoped for something much more
just before this youll have to

promise
we wont fall apart
promise
this right from the start
promise
on heaven that you would make believe

yeah e yeah e yeah
promise me

what will tomorrow bring
when desiding the truth
it gets so hard
but its just a day
when everything went wrong
relying on you

thinking
what did i
searching
what to find
right now
as i say youll have to

promise
we wont fall apart
promise
this right from the start
promise
on heaven that you would make believe
yeah e yeah e yeah

promise
we wont fall apart
promise
this right from the start
promise
on heaven that you would make believe
yeah e yeah e yeah
promise me

promise me...
