(Verse 1)

Funny kid, little kid, with a heart so big
Just don't be confused by the height I'm still confident
I speak my mind freely cuz I really care less
And I tell my girl the same thing just forget about the rest
Oh, she kinda, really, don't acknowledge me
The fact being maybe there's no analogy
Kinda cool the way that I can express myself
Later run off to your new man and tell em how I felt
Show em the lyrics, show em all the songs
Tell em what we use to do when u were home alone
Oh, wait, was I suppose to say that?
A lot of other things I wish that I could take back
Lust, not love our relationship revolved around
Took six shots I'm down and now it's him you found
I didn't ask much then she started shovin'
Maybe all she wanted was that indoor lovin' at home

(Chorus) (x2)

I know it hurts you,
But it hurts me,
You cold hearted,
So icy,
Now I'm cold,
You touched my heart and it,
Froze, froze, froze

(Verse 2)

And now, you can say it's pretty done for
How can someone be so beautiful and have an ugly core
You messed with my emotions, but not no more
Do you roger that, copy that, 10-4
Oh, there she goes again
Tellin' me she love me, girl I thought you was with him
I wish everyone can know exactly how it went down
Cuz we still do the same things as if we're going out
Talking for a while, flirting on the side
She looked the type to care about she had convinced my mind
Heart broken and she don't mind

My advice to everyone don't fall for her type

(Chorus) (x2)

I know it hurts you,
But it hurts me,
You cold hearted,
So icy,
Now I'm cold,
You touched my heart and it,
Froze, froze, froze
