Silver sun on the water
When we're apart
Slow beats my heart
Like the waves

Clouds are spreading 'cross the sky
The very same sky
That you see with your eyes
Way across the world

Oh, I understand you when you wanna be alone
That doesn't change the fact that I love you
And I wanna be alone
That doesn't change the fact that I love you

I am not left, I have not gone
I don't belong
To anyone left
I am like sand

Distantly and distant man
Where are you now?
Doesn't really matter
'Cause you're in every flower

Oh, I understand you when you wanna be alone
That doesn't change the fact that I love you
And I wanna be alone
That doesn't change the fact that I love you

Yellow moon above the pines
What do we find
In this time
It has no end
