Oh I want you  
Oh please take me, right here on the floor  
I won't fake it, just give me more  
Oh I love you, oh oh oh yeah

Whenever I see you my world's a disaster  
My feelings are strong I barely breathe  
My heart is on fire, this burning desire, it's taking me  
higher  
Ayayaya

It's the way you touch me, I adore  
And the way that your lips just beg for more  
It's the way your hair feels to my skin  
It makes me crave you from within

Oh kiss me  
Oh love me, and I will love you more

I can't take it, it's all I'm asking for  
Oh I need you, oh oh oh yeah

Whenever I see you my world's a disaster  
My feelings are strong I barely breathe  
My heart is on fire, this burning desire, it's taking me  
higher  
Ayayaya

It's the way you touch me, I adore  
And the way that your lips just beg for more  
It's the way your hair feels to my skin  
It makes me crave you from within  
It makes me crave you from within
