How can you stand and say
You still love me
I've been watching you baby
Watching you try to deceive me

You've been telling me lies
I can't take it anymore

CHORUS

I caught you cheatin
I wasn't cheatin baby
I saw you cheatin
I wasn't cheatin
You know I caught you cheatin
Yes young lady you've been cheatin me
I am going to wipe
That smile off your face
In your absence you gave me no choice
You have been replaced

Told me nothing but lies
I can't take it anymore

Repeat CHORUS

I was working late
Tell me who do you thing you're foolin
Goodbye

Repeat CHORUS and fade.
