"Colour All My Days"

Visit "[Colour All My Days](#)" on MotoLyrics.com

Every now and then there comes a time
To say a little more than words
And dedicate it to the one we love
To demonstrate how much we care

Just when we were maybe feeling low
I took some time to think things through
May I propose a toast to you and me
For fighting stormy weather
And keeping love together

CHORUS

Colour all my days
Shine for me always
Take a moment notice how you
Colour all my days
With a thousand lights
Stay with me for just a lifetime more

Hearing this will come as no surprise
Relationships are give and take
Ignoring what may seem in something small
Will often be the big mistake

Come tomorrow in a brand new day
That will provide us with a chance
To put it down to the experience
Who said this love is over
You've only just begun to

Repeat CHORUS and fade
