Can't pretend I didn't know
Your display was quite a show
But the audience was taken by surprise

On the evening of the fight
You were specially polite
To reveal how long you've lived these little lies

CHORUS

Don't send for me
When all the cold sets in
Don't send for me
Now you depend on him
Won't you please enjoy your latest company
Cause you better not send for me
Such a terrible affair
When the one for whom you care
Rushes into something obviously so wrong

One day you'll appreciate
But by then will be too late
Making love with me was sensual and strong

Repeat CHORUS

Thought we go our separate ways
Memories won't be erased

Repeat CHORUS and fade
