"Dreaming Of The Same Thing"

Visit "[Dreaming Of The Same Thing](#)" on MotoLyrics.com

Tell me my friend, your psylosphy
Does it give the answers you need to hear
It's human nature to search for some meaning in life

Help me my friend, I don't understand
Where is the respect gone for our fellow man
Have we learned nothing from history ask yourself
why, oh why

CHORUS

Whatever your point of view
I am just the same as you
We were dreaming of the same thing all along
Whatever your point of view
Now its time to face the truth
We were singing out the same hymn all along
Hold me my friend , listen to my prayer
When will we make up from this nightmare
It's human nature to reach out and embrace the heart

So then my friend, what do you say
Can we begin to love come what may
Or will the fire consume us and tear us apart

So take a look at what we've got - you and I
Better make the most coz it's a lot - you and I
Don't take for granted what we've got - you and I
Gonna sing it from the mountain top - you and I

Repeat CHORUS

You - I'm just the same as you

Whatever your point of view, now it's time to face the
truth
We were singing out the same hymn all along
Whatever your pioint of view, I'm just the same as you
We were dreaming of the same thing all along
