You whispered you love me
You played the role so perfectly
I trusted you and like a fool
Believed every word you said was true

Another heartache another mistake
One more experience
But I have learned to forgive and forget
No regrets, cause

CHORUS

Life must go on
Even though you've gone
Life must go on
I guess what's done is done
Life must go on
Cause even though you're gone
Life must go on
Baby we were the best
The epitome of happiness
But the autumn leaves have fallen down
And the king has lost his golden crown

Another heartache another goodbye
Another shattered dream
I'll put it down to a lesson of love
I believe that

Repeat CHORUS

Yes I will survive
And there'll be someone else
It's just a matter of time

Repeat CHORUS and fade.
