Taking hard all is making this ride too fast
I think I'll find a new way to remedy it at last
I'll take a little more time to get my focus seem right
I'll take a little more time I just can't see the light

(Chorus)

Putting on my monochromatic spectacles
My new found lens looks better than the modern world
I'm putting on my monochromatic spectacles
My new found lens looks better than the modern world
In monochrome, monochrome...

I think it's fall-over steep I wanna lie there with you
I've been watching the Moon and your eyes so blue
And now I look together and your heart is there to stay
I've been watching the road all day

(Chorus)

Putting on my monochromatic spectacles
My new found lens looks better than the modern world
I'm putting on my monochromatic spectacles
My new found lens looks better than the modern world
In monochrome, monochrome...

(Chorus)

Putting on my monochromatic spectacles
My new found lens looks better than the modern world
I'm putting on my monochromatic spectacles
My new found lens looks better than the modern world
In monochrome, monochrome, monochrome,
monochrome!

Taking hard all is making this ride too fast
I think I'll find a new way to remedy it at last
Find the circle by answers never known in our mind
The answers to questions aren't very kind

(Chorus)

Putting on my monochromatic spectacles
My new found lens looks better than the modern world
Then putting on my monochromatic spectacles
My new found lens looks better than the modern world

In monochrome, everything looks better now in
monochrome

Your face is much stiffer and much better at night
The pleasure feels great when it falls in my sight
Take a little more time and use a temperate light
Take a little more time to get the focus seems right

(Chorus)

Putting on my monochromatic spectacles
My new found lens looks better than the modern world
Then putting on my monochromatic spectacles
My new found lens looks better than the modern world
In monochrome, monochrome...

(Chorus)

Putting on my monochromatic spectacles
My new found lens looks better than the modern world
Then putting on my monochromatic spectacles
My new found lens looks better than the modern world
In monochrome, monochrome, monochrome,
monochrome!
