(VERSE 1)

All my loving all at once
I gave it all to you
Jealous woman pull your punch
Break my heart in two

(CHORUS 1)

Sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me, I'm talking to you
I said, sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me I'm talking too

(BRIDGE)

You know how to hurt me badly
You know how to hit me, hurt me, push me, punch me
You know how to hurt me baby
You know how to hit me, hurt me, push me, punch me

(MIDDLE VERSE)

Don't push your luck now lady
Don't push your luck too far
Your tongue is vicious maybe
But my blow is burning fire

(VERSE 2)

Treasures all emotional
Were buried in my soul
You took your spade and dug them out
And left me with the hole

(CHORUS 2)

So sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me, I'm talking to you
I said, sit down
Sit right down and shut your mouth
Sit down (shut up!)

Listen to me I'm talking too

(REPEAT BRIDGE)

You know how to hurt me badly
You know how to hit me, hurt me, push me, punch me
You know how to hurt me baby
You know how to hit me, hurt me, push me, punch me

(REPEAT MIDDLE)

Don't push your luck now lady
Don't push your luck too far
Your tongue is vicious maybe
But my blow is burning fire

(REPEAT CHORUS TO END)

So sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me, I'm talking to you
I said, sit down
Sit right down and shut your mouth
Sit down (shut up!)
Listen to me I'm talking to you
I said, sit down
Sit right down and shut your mouth
Sit down (shut up! shut up! shut up! shut up!)
