When love takes hold again  
Controlling how you feel  
About me, about men  
I've got these friends who  
Mimic flowers forever in my way

And dance on their enormity  
Like celebration day  
So innocently similar you can't tell them apart  
That weight so heavy on my heart

### CHORUS

'Cos they've been here for years  
Friends of mine, white feathers  
Collecting dust with tears  
Making mine, white feathers  
Confess to me expose  
A pair of snowy white  
Illusive shadows and all it takes is  
One more shout and then down I go my lady  
Down I go just maybe down I go my lady  
One more shout and then I go down my lady  
Down I go just maybe down I go my lady

Repeat CHORUS

One more shout and then down will I go (2x)

One more shout and then I go down my lady  
Down I go just maybe down I go (my lady) (5x)

Repeat CHORUS to fade.
