We did it in the kitchen and we did it in the hall
I got some on my finger and I wiped in on the wall
We did it on the lawan and we did it on the roof
You know I got the pictures if you want to see the proof

CHORUS

That's the way

I like it like that

First it was bananas and then it was a pear

And then I tried a cantaloup but it wouldn't fit in there

Then it was a vacuum and we both began to shout

I turned it on and got it stuck I couldn't get it out

I went out to the she'd and I got a two-by-four

She knew what I was thinkin' she was runnin' for that
door

I said I wouldn't hurt her

'Cause that ain't my kind of scene

I said it with a grin and I got the vaseline

CHORUS

That's the way

Sometimes I just like to lay your body down

CHORUS
