(Denis LePage, Denyse LePage)

(Chorus, Repeat 2x)

Don't you wanna do it to me?
Don't you wanna make me cry?
Can't you see I need affection?
Only you can make me high
Are you ready for me, baby?
Don't you wanna make me sigh?
Don't you wanna see my action
When you move up to my thigh?

(Verse)

I need you love, I need you kiss
I can't forget a night like this
Without your love I can't exist

Before I knew I had your lips
And then I felt your fingertips
While moving down to feel my hips
Baby, you gave me more and more
You never gave me a time like this before

Oh, pretty baby, I do deplore
I never had a time like this before

(Repeat Chorus)

(Instrumental Break)

(Repeat Verse)

(Repeat Chorus)

Don't you wanna do it to me?
Don't you wanna me fly?
Can't you feel my sweet reaction?
Only yours I can't deny
